- 1 Not in AED mode, as the energy automatically delivered is 150 joules and therefore too high for an infant (<10kg).
- 2 In AED mode for adults (≥25kg) only, as the energy automatically delivered is 150 joules and therefore too high for a child (<25kg) or infant (<10kg).
- 3 Pads can be used on adults and children ≥25kg or 8 years old.
- 4 Pads will operate with device for therapy, but cannot be left attached while device is in standby mode or while turned off due to self-test activity of the device.
- 5 Not available in all geographic areas. Please check availability with your Sales and Marketing Center contact.
